

FROM VISION TO REALITY

About

Shiv Shakti InfraSpaces Projects

Building Spaces That Last

Shiv Shakti InfraSpaces Projects is a family-led construction contracting team built on more than 10 years of hands-on site experience across Gujarat. What started as a small crew of civil and structural specialists has grown into a full turnkey team covering electrical, fabrication, HVAC, fire safety and project management - so commercial, retail, hospitality, healthcare and education clients get a single point of accountability from the first drawing to final handover.

We keep our own engineers and site crews on every project instead of subcontracting out the work, which is how we hold to our timelines, our safety standards, and the quality of finish our clients expect from a facility built to run for decades.
